

Sigma

Protect and Provide with our System

Sigma

Shopping trolley shelter

- > *Protects your shopping trolleys against theft and the elements*
- > *Ease of use thanks to mechanical or electrical drive on the roller shutter*
- > *Simple, timeless design – suits any style of architecture*

SIGMA
Shopping trolley
shelter
Utility model pend.

Higher level of protection

During the day, shopping trolleys are provided for your customers dry and in a neat and tidy condition. At night, your shopping trolleys have all-round protection, against both theft and the elements with the Sigma shelter with roller shutter and acrylic glazing.

Ease of use

The Sigma trolley shelter can be opened and closed electronically or mechanically. With the convenient electric version, the roller shutter can be operated using a key switch.

Point of service – day and night

■ **Sigma trolley shelters with lighting function act as prominent orientation points at** shops with longer opening times and during short winter days. Once the store closes, your shopping trolleys are stored away in the closed shelter, safe from theft.

Simple, clean lines

With its clear design, the new Sigma trolley shelter communicates the shop's high quality even from the car park. It suits every kind of building design and its adaptability leaves it open to meet a range of customer requirements.

Design freedom

The aluminium profiles of the Sigma shelter are also available in attractive standard colours or in a special colour of your choice. As an alternative to the standard acrylic glazing, we can also supply the shelter with aluminium panelling for extra-effective vandal protection.

Sigma Present

Outdoor sales shelter

- > *Presentation and sale of seasonal items outdoors*
- > *Neat and tidy impression as customers enter your store*
- > *No need to move goods before the store opens or after it closes*

SIGMA PRESENT
Outdoor sales shelter

More space for greater turnover

Sigma Present is the intelligent sales shelter of choice for outdoor use. It means additional sales space and impulse buys – irrespective of the time of year.

Well-presented appearance

With the Sigma Present sales shelter, you can ensure a neat and tidy impression as customers enter your store. The goods are always optimally positioned and well presented.

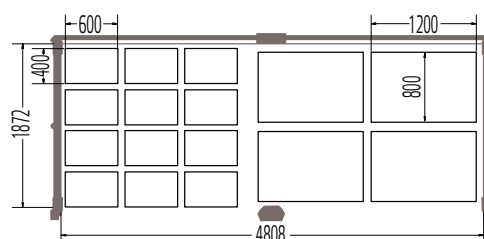

Presenting and selling in the outdoor area

■ **Now there's no more troublesome assembling and dismantling** of goods – in the morning you move the Sigma Present roller shutters up electrically, or mechanically, and at night move them down again. This saves time and saves on human resources. The outdoor sales shelter itself offers plenty of space for storing palletised goods.

SIGMA PRESENT
Outdoor sales shelter closed

Example of practical option for filling with pallets

Safe and protected

During the day, the goods in the Sigma Present are safely protected against wind and the elements. After closing time, the goods in the sales shelter are safely stored thanks to the vandal-proof aluminium panelling and the closed roller shutter.

Perfect for your requirements

Perfectly suited to your requirements. We supply the Sigma Present as a wall version, i.e. without a rear panel, but with rubber end strip.

Sigma Bike

Bicycle shelter

- > Clean and dry storage facility for bicycles
- > Harmoniously fits in with every style of architecture
- > Capacity to store up to 13 bicycles

Clean and dry solution

Sigma Bike is the storage shelter for customers who cycle. It is used to protect bicycles against the elements – a special customer service.

Lots of space

Up to 13 bicycles can be stored in the architecturally impressive shelter. Stable bicycle stands ensure a secure hold.

Sigma Special

Shelter for customised solutions

- > Flexible-use shelter for storing customised trolleys
- > Well ordered provision of various types of shopping trolleys and service trolleys
- > Ideal for stores with limited space

SIGMA SPECIAL
Shelter for customised solutions
Utility model pend.

Neat and tidy

Sigma Special is the ideal choice for storage of service trolleys out of doors. These shelters, which can be positioned in the car park, are customer friendly and protected from wind and the elements. This leaves valuable sales space in the entrance area free for the presentation of goods.

Safely stored

Once the store closes, the service trolleys in the station are protected by the theft-proof roller shutter. So you can rest assured that everything will stay in its proper place.

Design

Stylish aluminium profiles, rounded on the outside. Side and roof components made from transparent acrylic glass panels. Aluminium square tubes with plastic profiles mounted on both sides function as a guide and a bumper for shopping trolleys. Infinitely height-adjustable feet compensate for uneven ground.

Roller shutter

Reinforced aluminium profiles with integrated guide and plastic protection profiles. Aluminium casing with rigid foam filling. The roller shutter can be operated with an electric motor or hand crank.

Finish

Plastic powder coating, available in 7 standard colours. Special colours available on request.
