Leisure facilities

## The benefits for you at a glance

- Indoor & outdoor use (canopied)
- Applications can be changed via remote access
- Remote maintenance support
- Statistics – extensive evaluation options
- History – full documentation of all actions
- Alerts when minimum quantities reached
- Split screen for advertising messages
- Promotional videos in standby mode
- Encrypted, tamper-proof databases
- User management – personalised user profiles/access rights
- Revision-proof processing of payment processes
- Compliant with applicable legal provisions
- Standardised interfaces
- Easy to implement within existing IT structures
- Protected against vandalism thanks to concealed locking mechanism

### *We are a one-stop shop for your customised application!*

#### **V21 – the digital concierge**

The terminal can support you with visitor and employee management around the clock. Thanks to intuitive operation, the registration and authentication of people, issuing of access authorisation (tickets) or the confirmation of safety instructions can be completed quickly.

#### **V21 – a fully automated ticket vending machine**

Various tickets, as well as group and family entrance passes can be sold directly via the V21. All data is documented in the background and can easily be processed further via a central dashboard. Special rates and messages can be set up quickly.

#### **V21 – a service desk that never takes a break**

Offer your customers an information terminal with lots of extras, such as the option to find out themselves how many bonus points they have accumulated, buy gift cards or find out more about special offers and products. We provide your customers with the service they want.

**We will configure the V21 to perfectly suit your needs. Together, we will assess your needs and find an effective solution.**
