**VOYAGER EVOLUTION 3000 BL**  
Luggage transport trolley

**VOYAGER EVOLUTION 3000**  
Luggage transport trolley

■ **The Voyager Evolution 3000** stands out visually with its revolutionary design and impresses with its functions. These include an extended platform for luggage, a hybrid basket, extended bumper protection, an antibacterial coated handle for better hygiene, the long-term tried and tested maintenance-free brake system as well as the most reliable castors in the world. The Voyager Evolution 3000 provides highly manoeuvrable solutions in two versions which will complement the respective infrastructure.

### Hybrid basket

The unique basket design offers the largest possible advertising space and allows for the integration of several types of RFID devices for optimum fleet management.

### Extended bumper protection

The trolley features all-round bumper protection ensuring ideal protection of fittings and fixtures and the trolley itself.

### Push function

With the fully manoeuvrable Voyager Evolution 3000 model it is possible to move rows of luggage trolleys even in the narrowest of spaces or to push them using scooters.

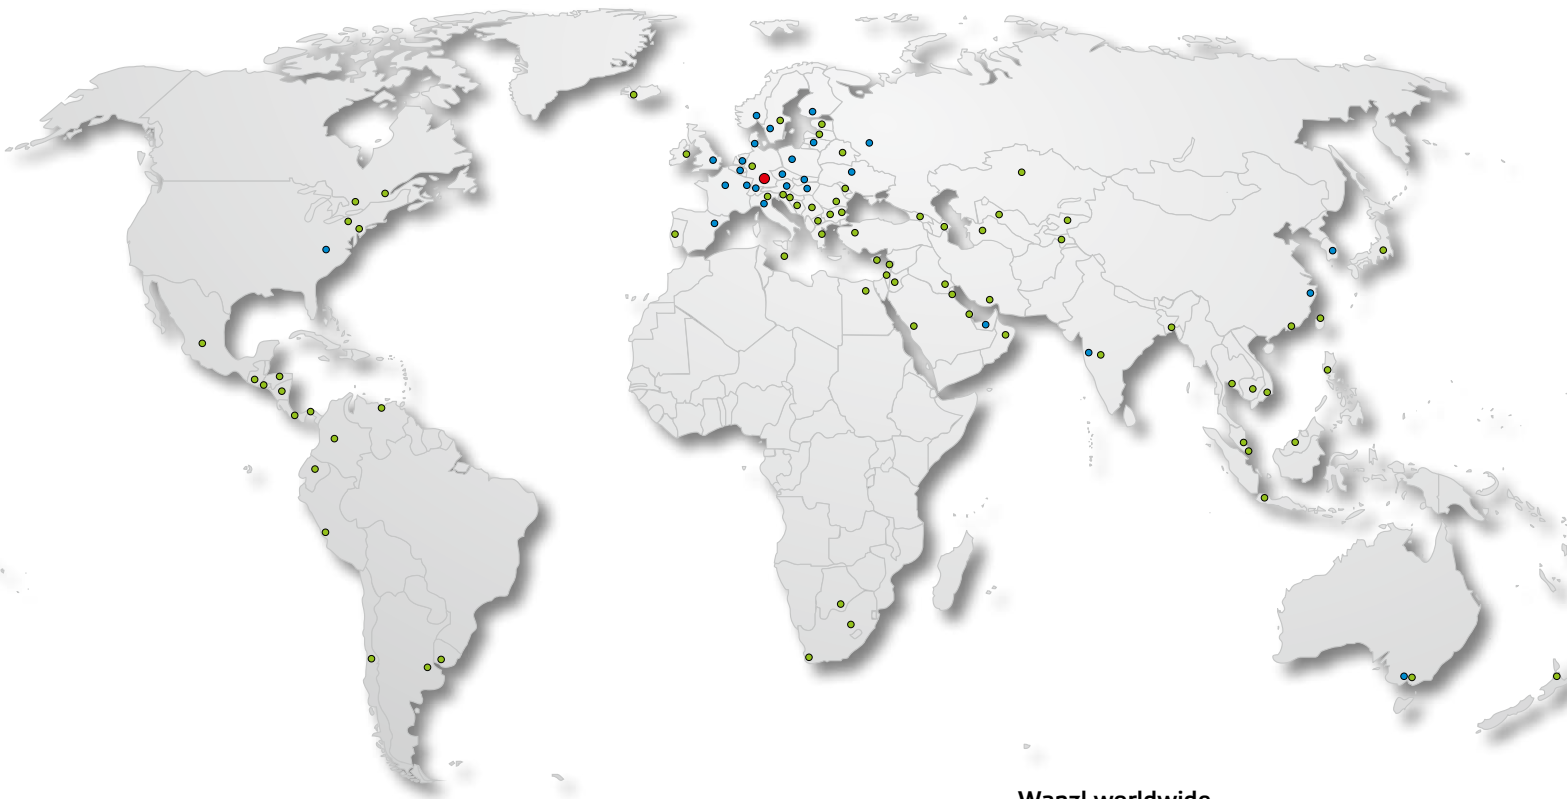

### Pull function

With the Voyager Evolution 3000 BL model it is possible to pull long rows of luggage trolleys using scooters efficiently with extremely low castor abrasion.
