solution for your store.

## Going the extra mile for your customers

**The mobility market is changing.** Electric cars and e-bikes are becoming increasingly popular and creating a new standard of living in our cities. The Bike&CarEnergy charging station is a special service that will set your store apart as a modern retailer and increase customer footfall.

## Outdoor charging

**Bike&CarEnergy makes it easy to charge e-bikes and electric cars quickly and safely.** By providing the necessary cables together with the charging station, there is no longer any need for your customers to carry their heavy chargers from home – making shopping in your store especially convenient!
