| WANZL SHOP SOLUTIONS

Sustainable shop fittings for organic food stores

■ **More and more customers** are buying organic food and drinks. The honest nature of product ingredients and the holistic quality concept of retailers are popular among customers. This is complemented by the store personnel's keen understanding of the product range and competent advice.

Freshness, origin, regional focus and sustainability make organic food appealing, including fruit and vegetables, meat, sausages and cheese, bread and baked goods.

Each and every day offers new opportunities to enjoy these products, which is what gives organic brick-and-mortar retailers the edge – being close to the customer, spoiling them with products from regional producers and having a high level of confidence in the first-class quality of their goods.

This insight must be reflected in the retailers' overall appearance, as well as in its specific presentation of its high-quality products.

Wanzl Shop Solutions knows just how to get this done. We have been instrumental in creating inspiring and sustainable stores in the organic foods sector for many years. Customers become guests who appreciate the special service and emotional shopping experience.

A team experienced in planning and design perhaps or also in collaboration with external designers – gives each store a unique look to convey the individual brand identity of the store.

| SHOP SOLUTIONS PROJECTS

Where shopping is a pleasure

■ **Wanzl Shop Solutions** realises unique shopping environments in close and trusting collaboration with customers and partners. A shopping trip is transformed into a complete experience that appeals to all the senses. Be inspired!

| PRODUCT SOLUTIONS FROM WANZL

Always the right choice with Wanzl product solutions

■ **All products insist on presenting an advanced sense of design.** In addition, the high-quality materials and impeccable workmanship make a strong impression – for particularly long-lasting and sustainable applications in your store.

↑ **GT26 ECO SHOPPING BASKETS**

Shopping is really fun with the GT26 eco shopping basket. The ergonomic, semicircular design allows the basket to be carried close to the body to lighten the load. With four handle colours to choose from, every shopping basket is an eye-catcher. In addition, the GT26 eco shopping basket is made from environmentally-friendly recycled material.

↑↑ **WIRE SHELVING**

Wanzl shelving creates inspiring spaces and experiences enhanced by true character – with versatile layout options and a fascinating selection of materials, finishes and colours. The high-quality, stable constructions adapt as flexibly to the architecture as they do to new tasks.

→ BAKEOFF

The BakeOff sales unit puts baked goods in the spotlight, clearly visible behind hygienic flaps. Baking tongs ensure that baked goods are removed hygienically and that each product gets into the bag safely. Ideal for self-service!

↓ VITABLE

Market-fresh is the first thought that will strike your customers when they see the Vitable fruit and vegetable units, which are based on the traditional market stall look. They remind customers of markets brimming with freshly-harvested fruit and farm-fresh vegetables.

← YOURTABLE

YourTable is the multifunctional presentation table for flexible product presentation and intensified impulse buying. All the components and accessories can be used and combined in versatile ways. This means more design freedom in product presentation – with minimal effort. Thanks to the expressive selection of colours and finishes, YourTable becomes a unique stage for the products.

↓ YOURTABLE COOL

The true all-rounder for perfect product presentation at low temperatures. YourTable Cool also features outstanding flexibility with a multitude of components and accessories throughout the range – depending on the space available and selection of goods.

| ZERO-WASTE SOLUTIONS

Presentation and sale of non-packaged goods

■ **The presentation and sale of non-packaged goods** has become a trend. More and more people, and not only followers of the zero-waste movement, want to buy products with less or no packaging. Package-free shopping was first discovered by start-ups and has long been a trend in organic food stores and supermarkets. Wanzl Shop Solutions is pleased to share its extensive expertise in implementing non-packaged systems in the retail space.

Our services at a glance

- Presentation of non-packaged goods
- Strategies to prevent the use of plastic
- Development of refill systems
- Cleaning and hygiene
- Storage and processes

| SUSTAINABILITY

We also take responsibility in the production process

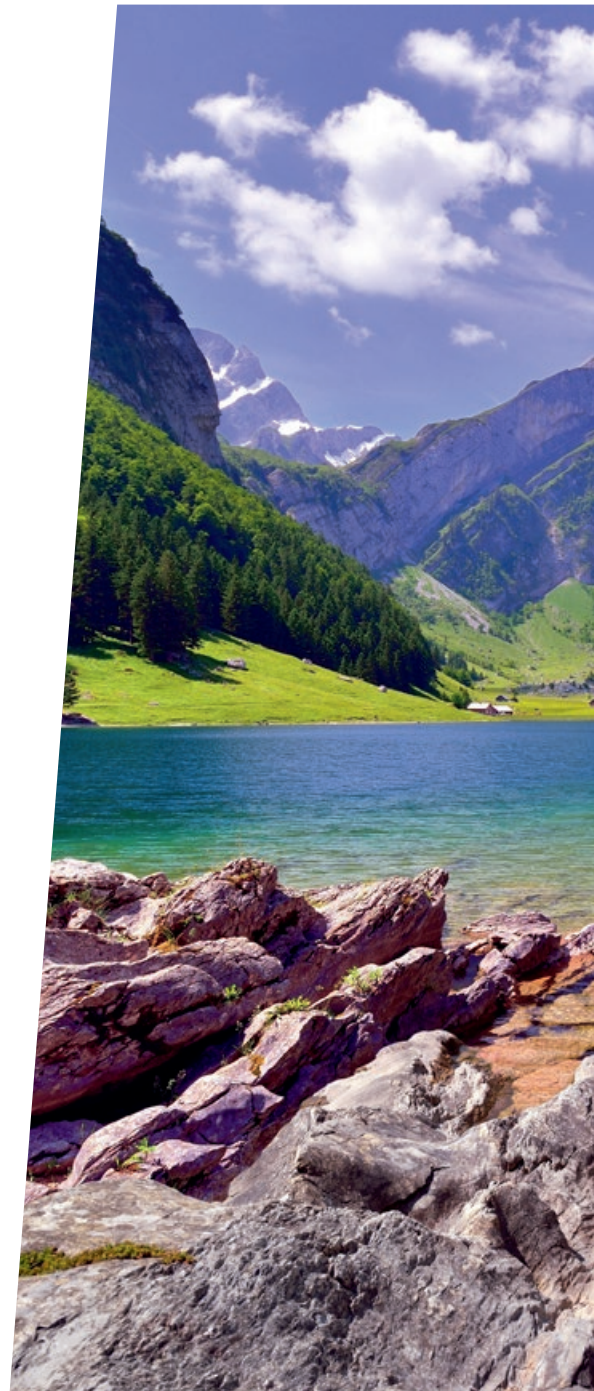

■ **We are very aware** that our activities influence the environment. With this knowledge and our conviction, we consider it our duty to act responsibly towards both people and the environment. Wanzl has set up a dedicated internal environment committee to ensure that both are protected. The main objective is to reduce environmental pollution and energy consumption while taking into account applicable laws and regulations on a continuous and sustainable basis.

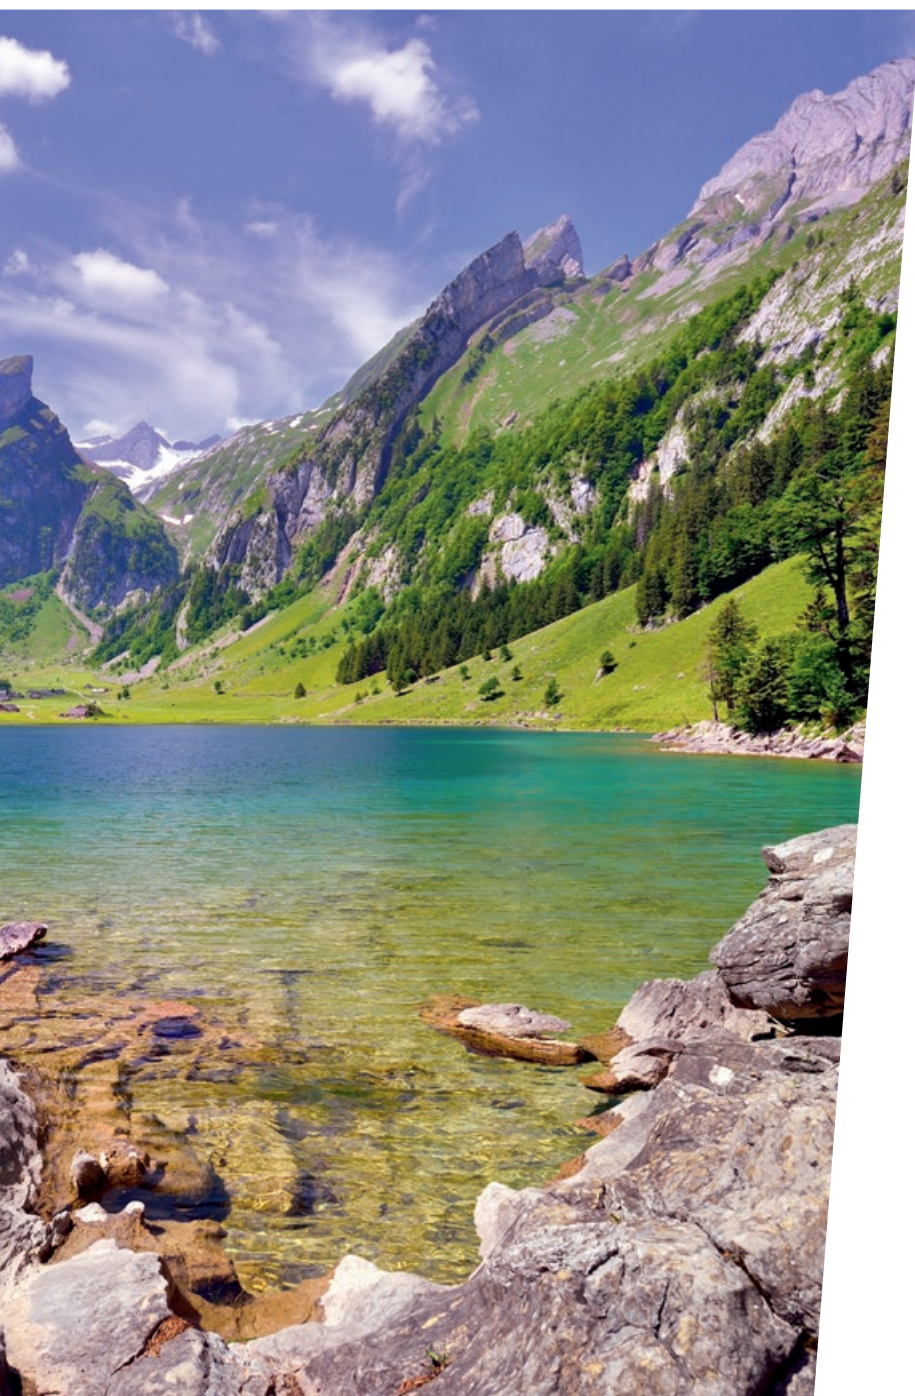

Regenerative cycles

Wanzl is a recognised "Ecoprofit" company thanks to its commitment to reduce the consumption of energy, water and raw materials and minimise waste: the reuse rate is 97%, and the plastic recycling rate is 100 %.

Electroplating with active sustainability

All the electroplating technology in Wanzl's plants uses trivalent chromium plating in order to protect people and the environment. Wanzl's electroplating units are exemplary and meet the strictest requirements when it comes to sustainability. The exhaust air is thoroughly cleaned down to the smallest particle using wet scrubbers and droplet separators.

Energy utilisation

Wanzl has committed itself to the sustainable use of energy. Ecological and economic action are part of the basic principles of all economic activities within the company.

In addition to reducing energy costs, Wanzl strives to achieve a steady reduction in CO₂ emissions and a reduction in environmental pollution in order to make an active contribution to climate protection.

Exemplary forest management

Wanzl supports the best-known forest certification system – FSC® – and was awarded the FSC® COC certificate for the first time in spring 2019.

| CORPORATE SOCIAL RESPONSIBILITY

Employees are Wanzl's most important resource

■ **By consistently complying with all relevant safety regulations** at production sites and branches, Wanzl ensures that the lives and health of its employees and third parties are protected, and the risk of accidents is reduced in the long term. Employees receive regular training in handling hazardous substances and steps are actively taken to ensure a safe and healthy work environment. Workplaces meet or exceed the applicable standards. In addition, health-promoting measures are used to actively maintain the health of employees.

Wanzl pays fair wages, keeps to its agreed working hours, breaks and resting periods, as well as honouring the applicable leave regulations.

Child labour and forced labour are rejected in every aspect.

Wanzl abides by and upholds internationally recognised human rights and always acts to protect them. Wanzl does not accept any form of discrimination based on age, gender, religion, origin, sexual identity or political conviction.

| COMPLIANCE

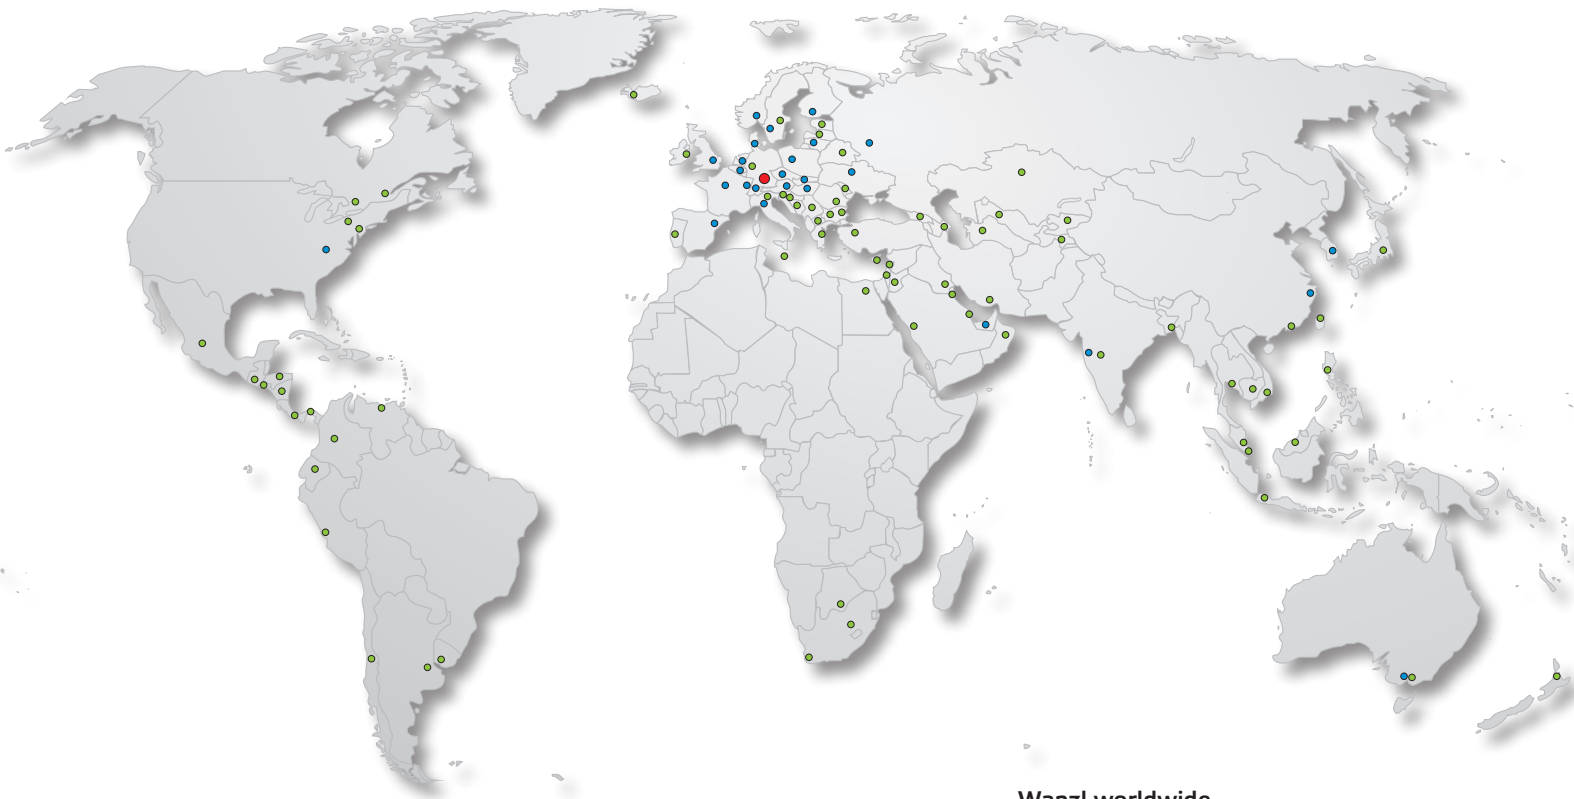

Benchmarks of Wanzl's actions

■ **Responsible conduct** towards co-workers, customers, business partners, the environment and society is the philosophy embodied by Wanzl, and this is inextricably linked with its corporate identity. This reliability is a key reason why Wanzl has been a world leader for many decades and has become a partner to global customers and business partners.

As a family company, Wanzl is interested in maintaining a stable working relationship with its business partners, focussing on the exceptional quality of its deliveries and services and a clear commitment to fair conduct.

For Wanzl, compliance means that all employees adhere to all the legal regulations, regulatory standards and other ethical standards and requirements that the company has set for itself. Wanzl's Code of Conduct, available at www.wanzl.com, includes a summary of all the standards and values applicable to all Wanzl employees worldwide.
