

| YOURTABLE SWITCH

Talented sales all-rounder for your POS presentation

| SIMPLY “SWITCH”

Three in one: YourTable Switch combines table, tier and shelving systems.

■ **The special quality** of the retail spaces of today is above all their versatility. Time really is money here – money that can be saved if you can “switch” your product presentations as quickly and easily as possible. Speed is an increasingly important factor in day-to-day shop operations as the cycles in which you respond to your customer’s needs are becoming shorter, and your reaction speed as a store operator is key.

It is also crucial that you can rely on the adaptability of the retail displays at your POS. YourTable Switch from Wanzl gets to the heart of these contemporary requirements of flexibility and modularity.

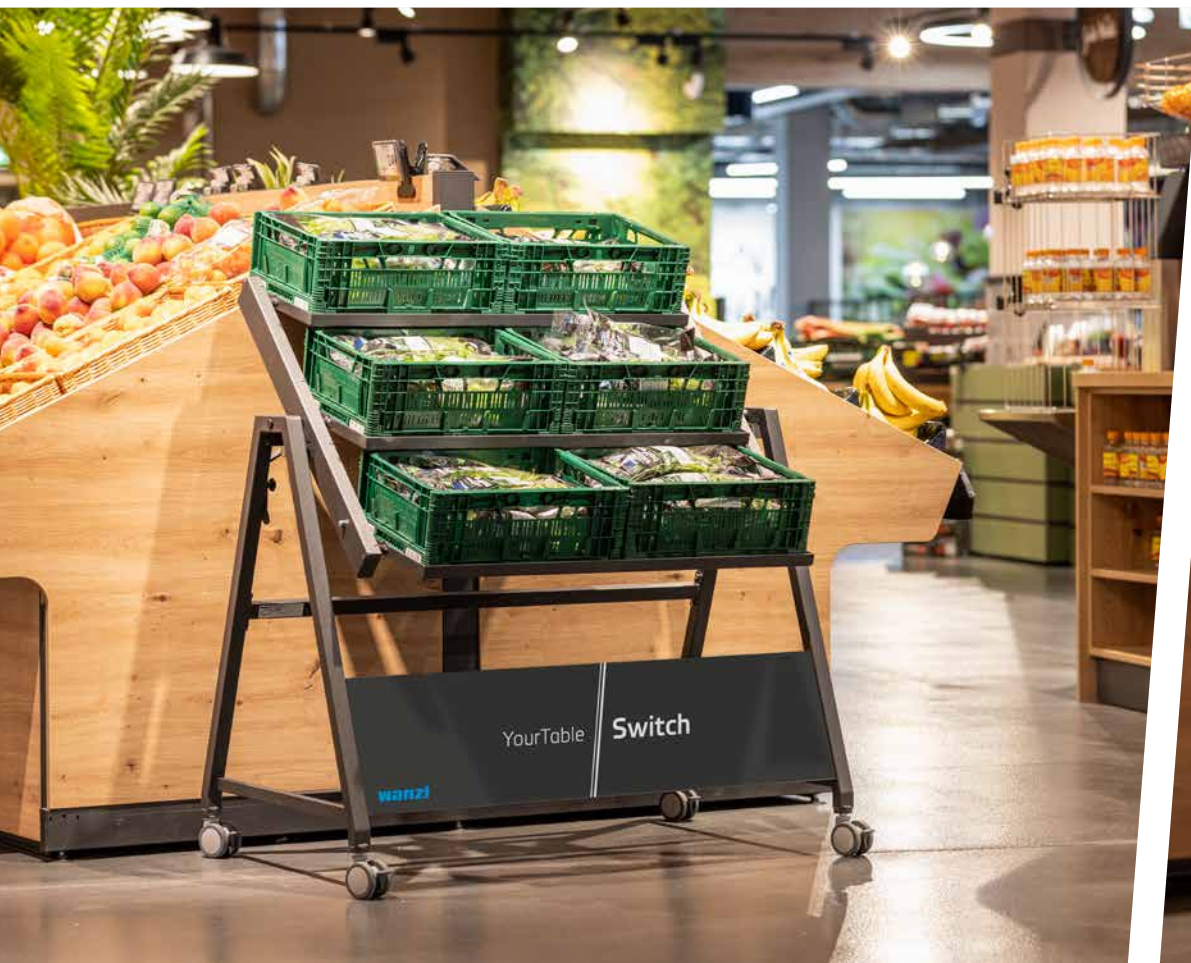

This is where the “switch” comes in: YourTable Switch can be used as a table, shelving or tiered system, depending on your requirements, and can be supplemented with smart additional accessories depending on the function required and in line with the store’s decoration. ➤

| SIMPLY IRRESISTIBLE

YourTable Switch makes it easy for your customers to help themselves.

■ **Fruit and vegetables, herb pots, fine wines:**

YourTable Switch from Wanzl makes a great impression on customers no matter the type of merchandise on display. Store operators can display the attractiveness, freshness and variety of their product range in the smallest of spaces.

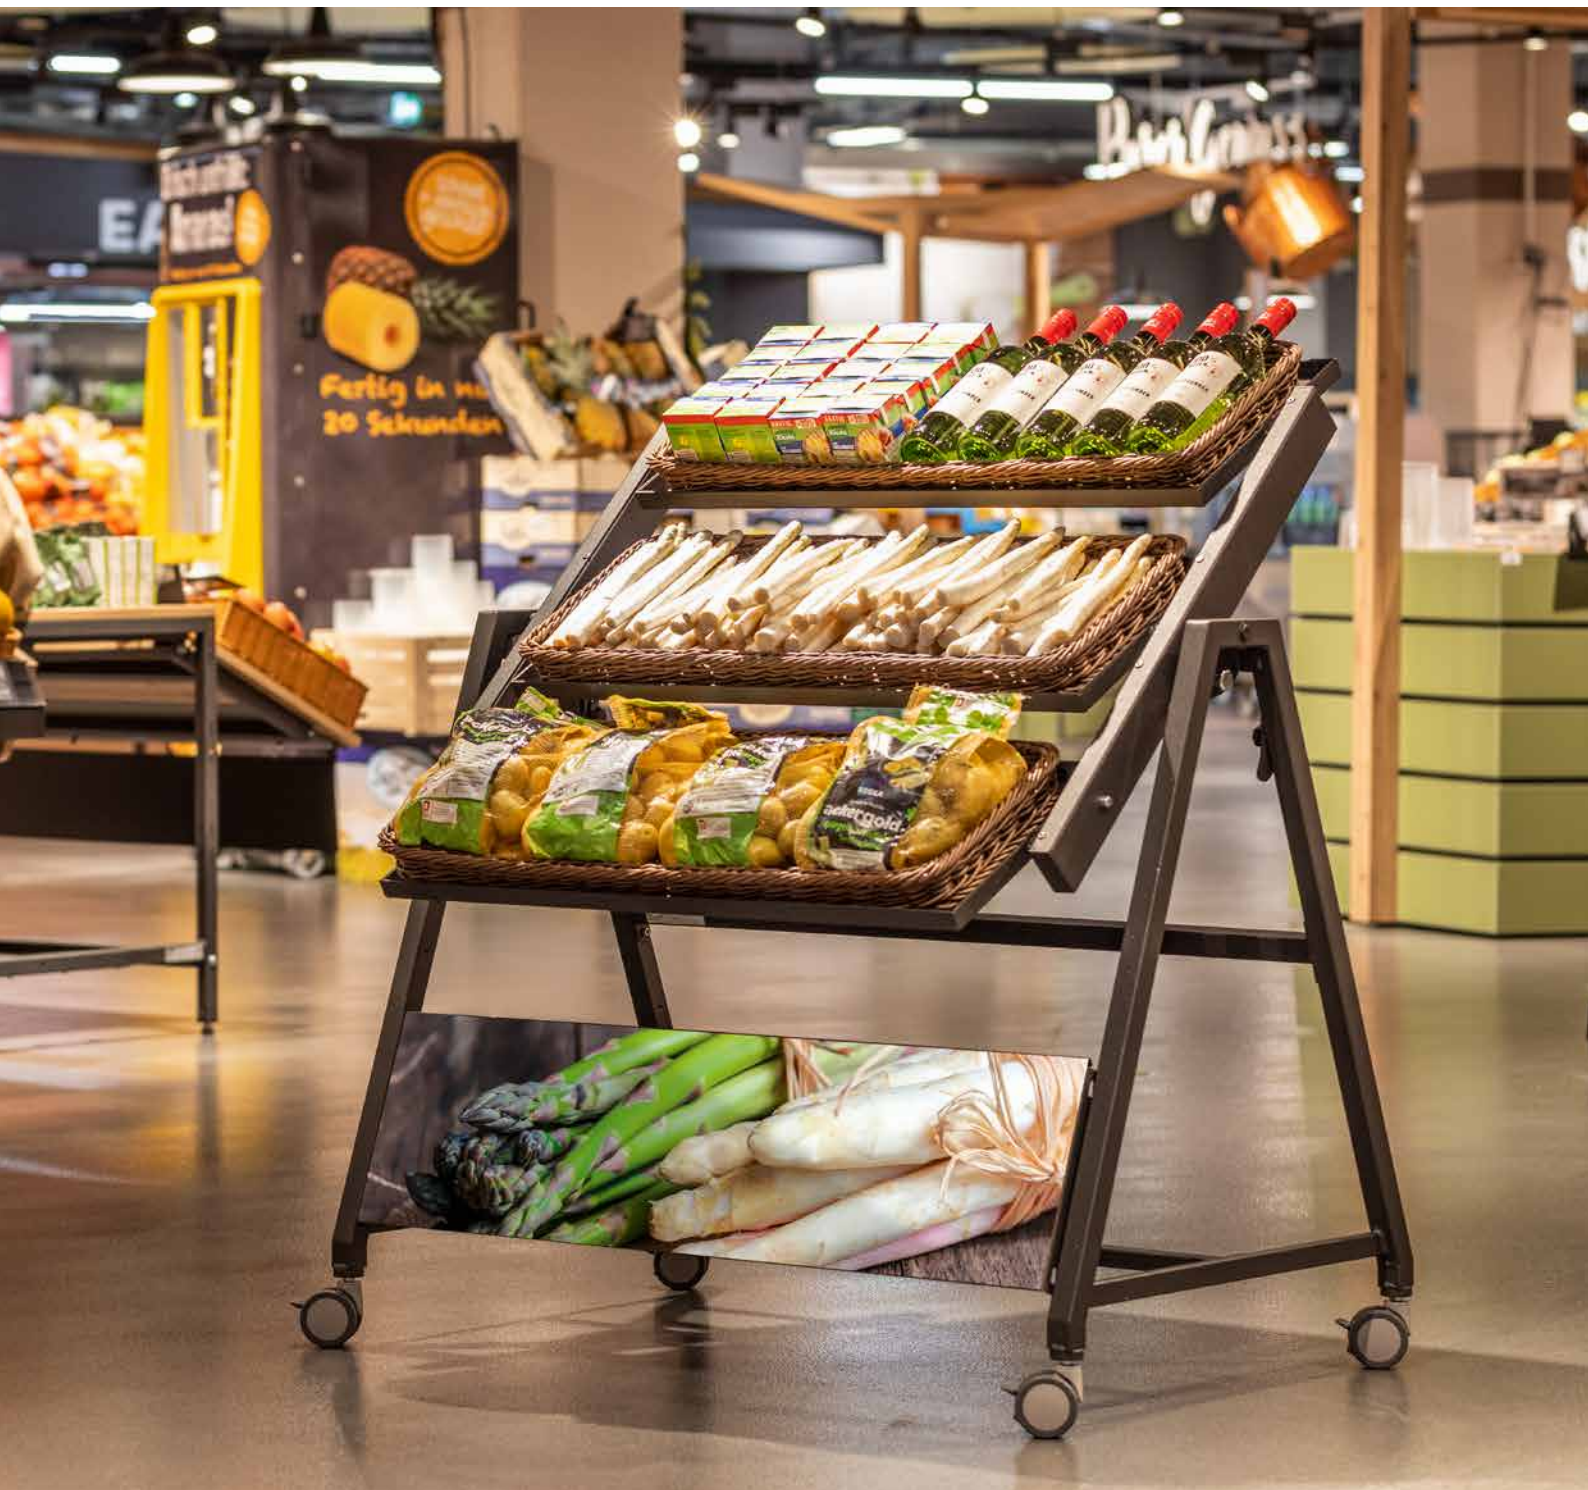

↑ **"FRESH FROM THE BOX"**

YourTable Switch always adapts to your products.
