Regeneration for more motivation

| STAFF ROOM DESIGN

Regeneration for more motivation

■ **For people to remain highly motivated** it is crucial for them to have an opportunity for regeneration: this principle applies to employees in the dynamic retail segment in particular. Whether at mealtimes, for an occasional power nap or for small talk in a group: the more appealing, functional and comfortable their retreat is, the better they can switch gear or switch off – before devoting their full attention to their tasks again.

Staff and social rooms as oases of relaxation and regeneration – at Wanzl we offer solutions that will fully convince you and your employees.
Compact, yet fully equipped kitchen and dining areas.
Stylish lockers for storing personal (valuable) items.
All this surrounded by atmospheric furnishing and lighting concepts. You can rely on us: we create very special atmospheres!
