

| COOLING SYSTEMS

Store concepts from a single source – now with stylish fridges

| SHOPPING ENVIRONMENTS THAT IMPRESS

Refrigeration section with a feel-good atmosphere.

■ **Refrigeration sections are not easy to deal with.** With their low temperatures and simple shelving designs, they usually generate the feeling of being in a warehouse than in an inspiring shopping environment. Shoppers tend to grab their groceries and get out of the refrigerated area as quickly as possible.

A better solution is now available. Never miss another sale – equip the refrigeration section with stylish fixtures and create a world of experiences.

| AN OVERALL CONCEPT WITH STYLE AND SERVICE

Stylish refrigeration units above and below zero

■ **We offer** a complete solution from cooling systems to the piping through to the visible refrigeration unit.

Additional presentation space allows for optimal design of the refrigerated area. A wide range of accessories enables flexible presentation of a wide variety of foodstuffs.

Plug & play option

Plug-in units for a flexible store layout.

// Your benefits – at a glance //

- High product density thanks to narrow shelves
- Consistent styling line also for fridge and freezer combinations
- Long service life thanks to stainless steel frames and shelves
- Flexible item separators for efficient stocking
- Plexiglas shelf stoppers increase the visibility of the packaging area
- Optionally available with doors to save energy

| WALL SOLUTION

Above zero

■ **Sky and Neptun** perfectly complement each other as a wall solution. Both units are identical in look ensuring that the above zero and below zero areas in the refrigeration section have a uniform appearance.

↓ SKY

The premium model impresses with its elegant look and additional features:

- Glass gondola topper
- Virtually invisible frameless "Panorama" thermal glass doors
- Stainless steel bumper
- Efficient technology thanks to EC fans
- Electric shutters

P&P option

Below zero

→ NEPTUN

The freezer perfectly matches the look of the Sky units from the above zero area.

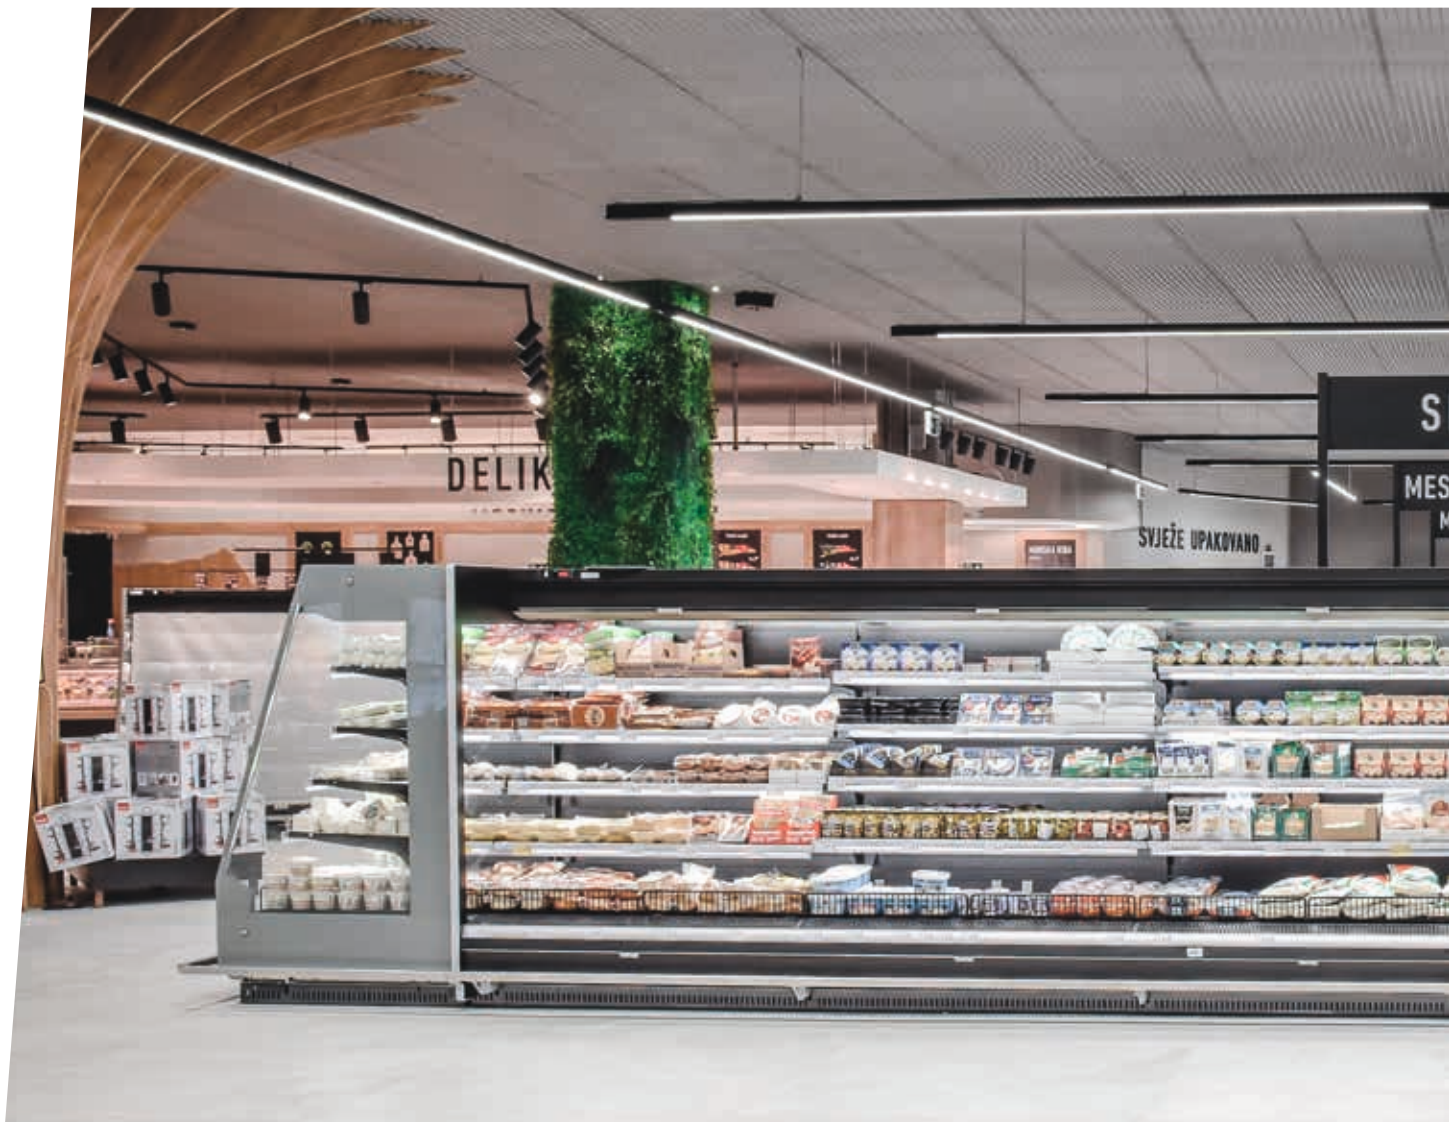

- Stainless steel handles
- Panorama side panels
- Anti-fog coating on doors
- Heated side panels
- Wide swing of doors for easier stocking

/ MID-FLOOR SOLUTION

Above zero

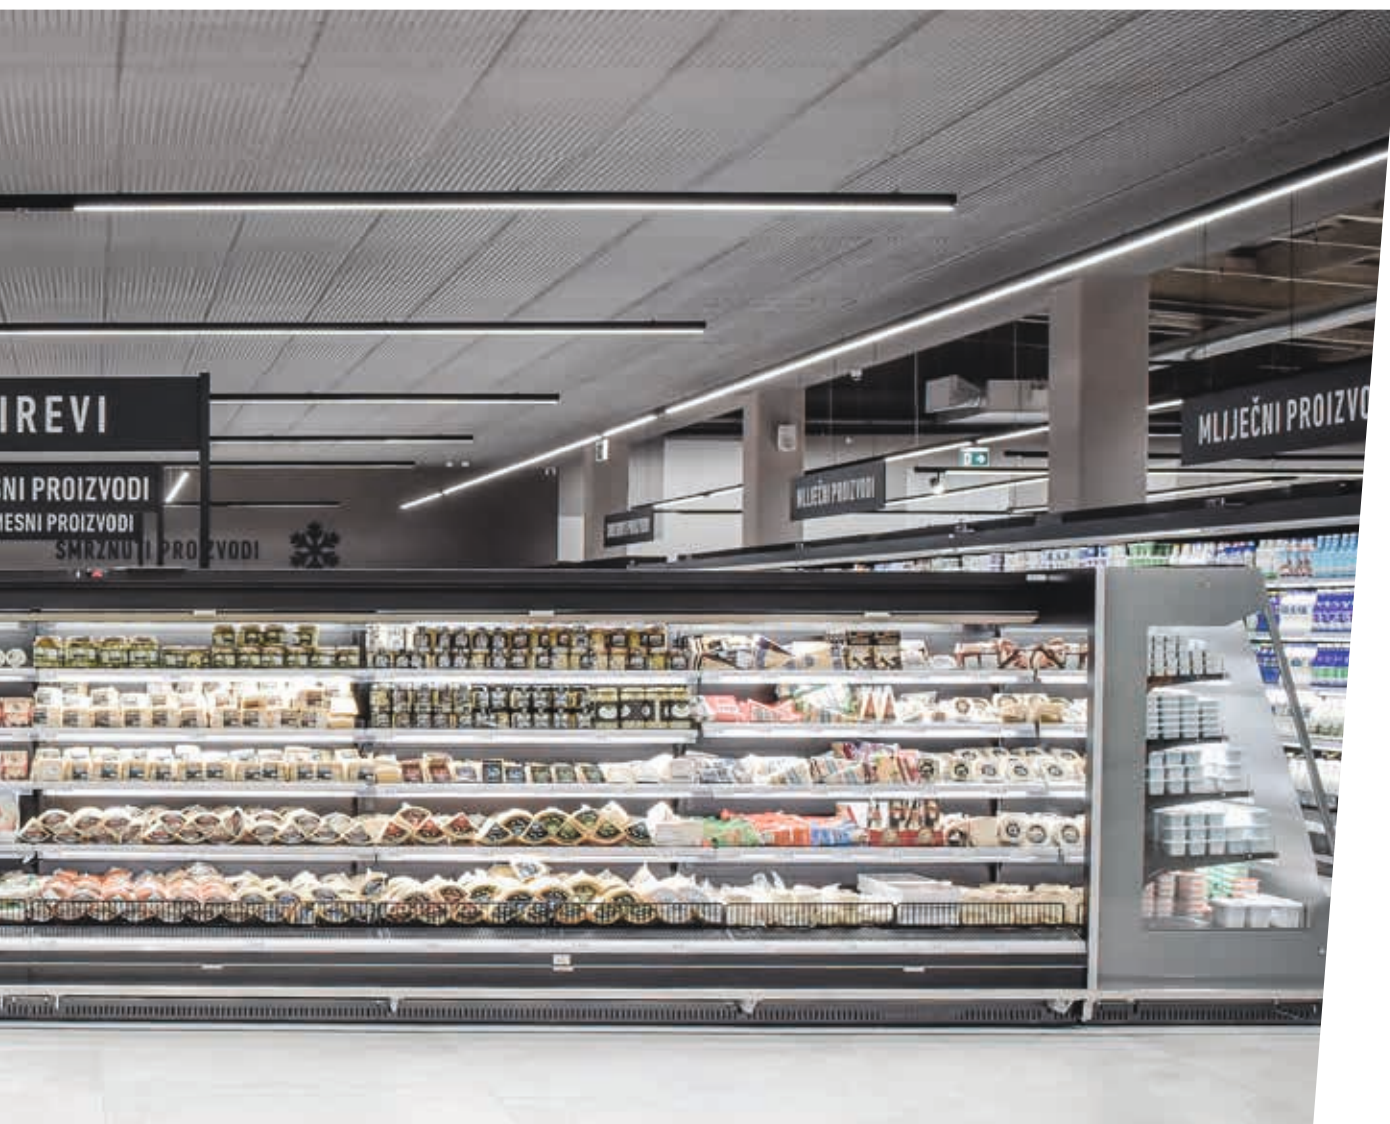

■ **The half-height elements** can be flexibly combined and complement the wall elements in an unobtrusive design. Gondola end cap placements with glass side panels increase product density.

→ ↓ COMET

- Semi-vertical doors provide easier access for customers
- Also optionally available without doors
- Low units and more space as evaporator installed at rear
- High level of product visibility even when standing close to the shelf
- Flexibly adaptable to the Sky or Horizon design

P&P option

| SERVING COUNTERS

Above zero

■ **There are no limits to the imagination** when it comes to designing appealing serving counters. Our team will be pleased to advise you and always finds the perfect way to showcase your products.

TECHNOLOGY AND SERVICE

Services

Controls

A variety of controls can be integrated as required. Customer-specific adaptation – integration of all common control systems such as Wurm, Eckelmann, Danfoss and Dixell.

Energy

The energy-saving evaporation system uses energy waste heat.

Cleaning

The refrigeration units are modular and the inserts can be easily cleaned. Professional cleaning is also available as a service provision.

Service

In the plug & play models, the service hatch can be opened towards the front like a drawer for quick access to the technical components.

Services

■ **Our 360° service** also provides extensive aftersales support. This includes remote monitoring of your systems by us in order to quickly remedy faults at less effort and expense. If necessary, we will be on site with a response time of four hours throughout Germany.

Services:

- Leak detection to prevent subsequent damage
- HACCP monitoring to safeguard the shelf life of refrigerated food
- Maintenance
- Cleaning (complete basic cleaning or partial cleaning, e.g. heat exchanger cleaning)

Design and planning

■ **Would you like to renovate your store or are you planning a new store?** We can offer an overall concept! This means that we will do everything from the design, structuring and furnishing through to the installation.

One contact person will take care of your store requirements to provide customers with a shopping experience.
