

Standard cash desk

Economical and functional

Standard cash desk

■ The checkout touchpoint is of great significance for retail and an important interface between customers and the store. Here, the aim is to combine requirements such as comfort and efficiency.

The Wanzl Standard cash desk range meets this objective. It ensures efficient and reliable processes in the checkout area. The Standard range offers the right cash desk for every market segment.

SINGLE CASH DESK

TANDEM CASH DESK

- *Cash desks with great flexibility*
- *Wide range of applications*
- *Extensive range of accessories*

TANDEM CASH DESK

Standard cash desk – standard equipment

1 Workplace ergonomics

The checkout workstation is designed in accordance with the latest guidelines and provides employees with an ergonomic working environment.

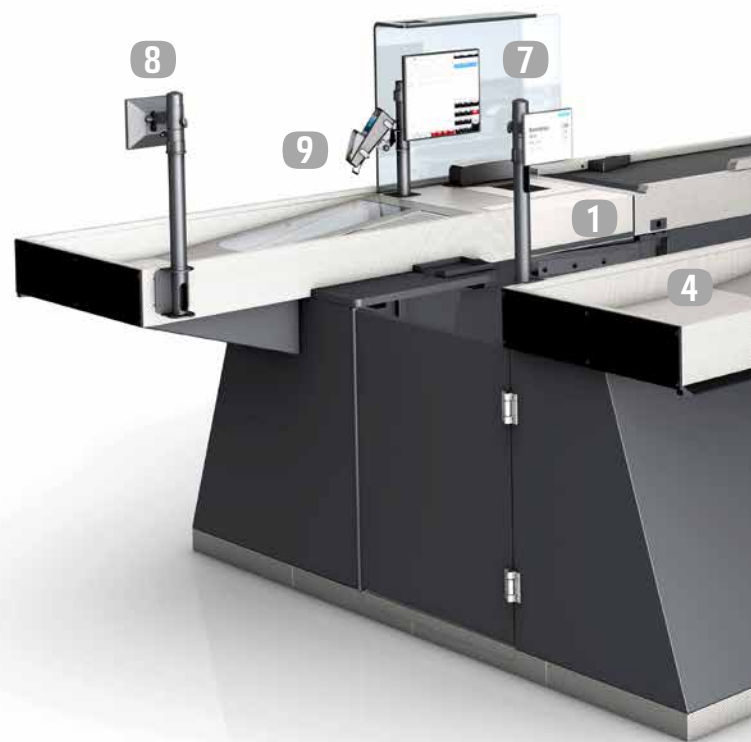

2 Roller conveyor

The integrated roller conveyors can be easily removed for cleaning.

3 The glass pane

allows staff to have an unobstructed view of the shopping trolley chassis.

4 Packing recess

The packing recess is completely welded. Dirt and liquids can be removed without leaving any residue.

5 The side impact protection

protects the cash desk from damage caused by shopping trolleys.

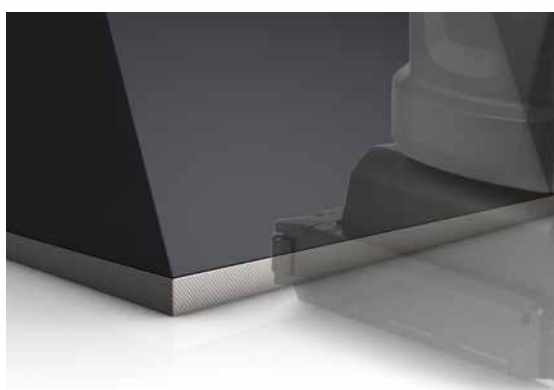

Cash register pre-equipment

6 Stainless steel profile

The stainless steel plinth protects the cash desk from damage caused by cleaning machines.

7 Cash desk display, checkout scanner and cash box are pre-equipped for standard components and ergonomically integrated.

8 Printer and customer display

The receipt printer is placed next to the cash box for easy access. The customer display is easy to see and read. Printer and display not included.

9 Payment terminal

The payment terminal is easily accessible to customers and checkout staff alike.

Standard cash desk – optional accessories

5

2

1 Acrylic glass pane with cash tray

The pane prevents unauthorised access to the cash box by unauthorised persons. The acrylic pane is also available in a larger version (COVID-19 variant).

2 Dividers

Practical product dividers separate the purchases of different customers on the conveyor belt.

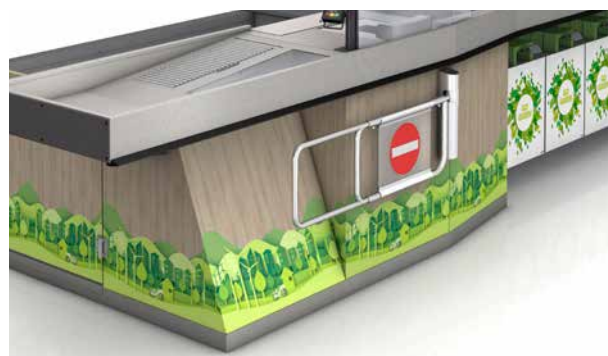

3 Bag holder

Easy-to-access bag holders under the conveyor belt hold carrier bags for shopping. Provision for displaying prices on the bag hooks is possible.

4 Individualisation

The Standard cash desk can be adapted to the corporate design using magnetic foils.

6 The mechanical checkout barrier
ensures that only staffed tills are used by customers.

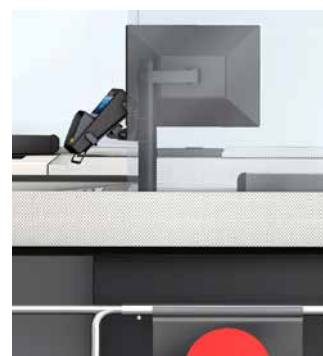

7 The checkout display stand
presents drinks, snacks and other goods in an appealing and well-organized manner.

5 Checkout guidance system
The checkout guidance system reliably controls the flow of customers into the checkout area by means of status displays and voice announcements.

8 Holders
for various electronic devices.
Our recommendation: Ergonomic Solutions

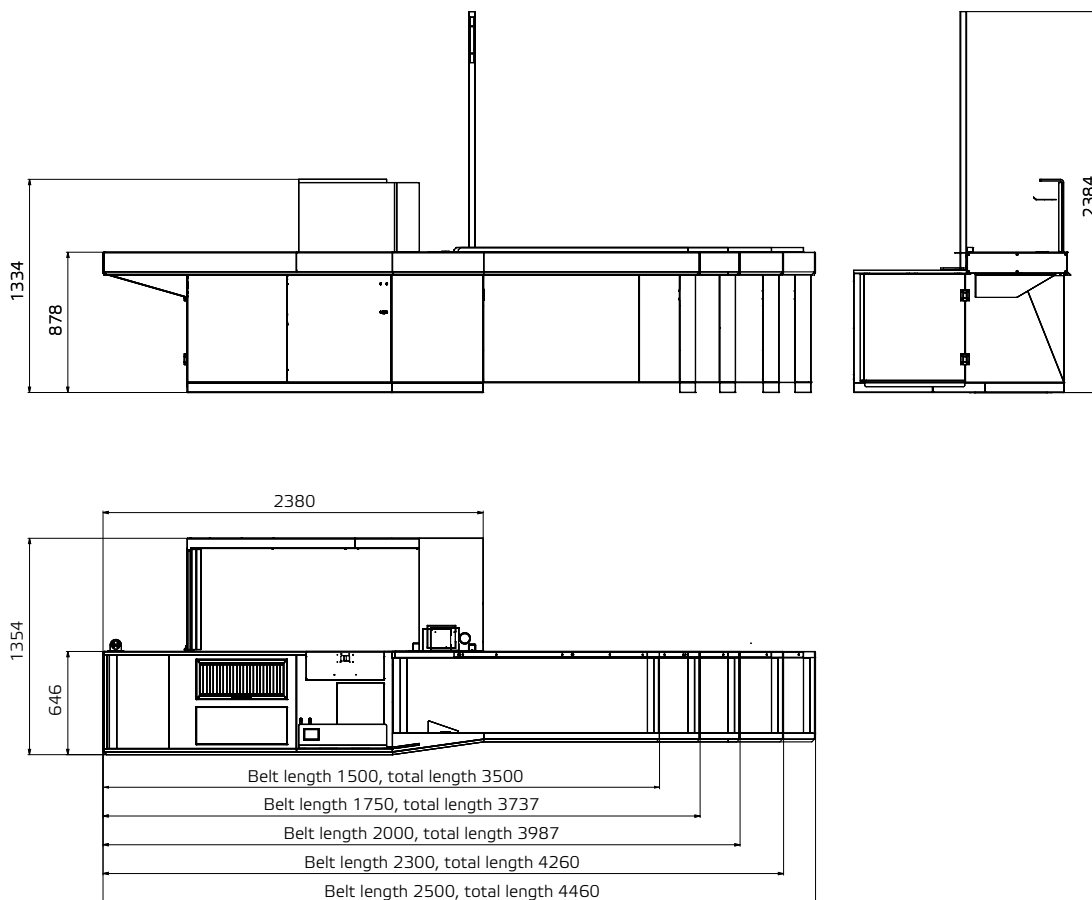

Standard cash desk – single cash desk

Standard equipment

- > Belt lengths in mm: 1500 / 1750 / 2000 / 2300 / 2500
- > Rectangular cash desk body
