

I STM

Your bulk seller

STM

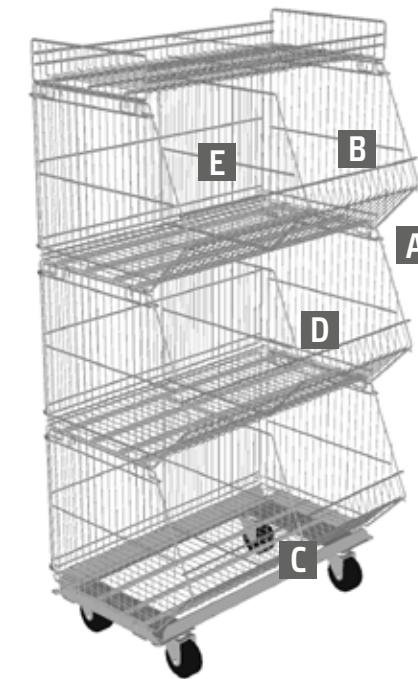

■ **Wanzl Nordic's stackable basket**, offers the possibility for simple self-service and is ideal for exposure of bulk goods. It is a basket, which has been a success in thousands of shops. The STM basket is ideal for heavy goods, since it is sturdy and constructed for high bearing capacity.

The baskets are stackable and can be used for exposure, transportation and storage both in the shop and on the streets. The below photo illustrates 3 baskets including a top basket – module width 90 cm as well as underframe on wheels – total height approx. 160 cm.

The STM in brief

- Solid and sturdy basket
- Module dimension: 90 cm
- High bearing capacity
- Available with break casters
- Foldable – occupies a minimum of storage space
- Easy assembly without tools
- Stackable
