

QueTech™

Modular queuing system

Why QueTech™ by Wanzl?

A front-end solution designed for retail needs

In the fast-paced world of retail, the front-end of your store is where first impressions are made and last-minute sales are captured. QueTech™ by Wanzl is designed

to transform this critical space, offering a modular, versatile, and visually appealing solution that addresses the unique challenges faced by retailers today.

KEY BENEFITS OF QUETECH™

GUIDANCE TO OPTIMAL FLOW

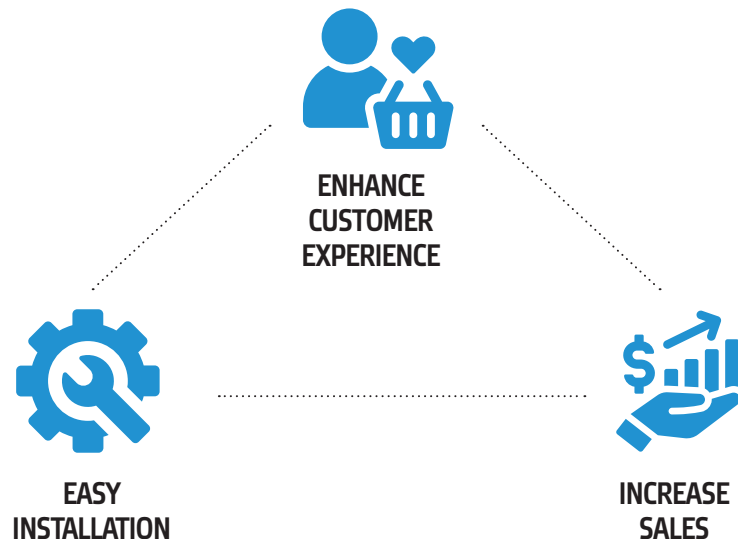

QueTech™ provides a structured pathway that guides customers enhancing the shopping experience.

MAXIMIZE IMPULSE SALES

Designed to drive impulse sales, merchandise is placed in the customer's line of sight during checkout to capture additional sales.

SIMPLE MAINTENANCE

Wire construction requires less maintenance and cleaning, ensuring your store always looks its best.

Why is QueTech™ Superior?

- **Modular Design.** With a sleek and modern design, QueTech™ integrates into any retail environment. As a modular system, it allows for easy adjustments and expansion with additional units so retailers can promote impulse-driven merchandise and rotate product all-year long.
- **Ease of Installation.** With *one wrench (included)*, your team can assemble the entire system without an installation crew. The intuitive design saves time and reduces operational disruptions.

Elevate the Shopping Experience

Boost the bottom line by maximizing your footprint

■ **Corner Solution** Dump bins can be placed in corners to maximize the retail space and house merchandise throughout the queuing system.

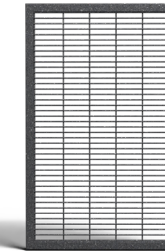

Dump-bin, pg. 11

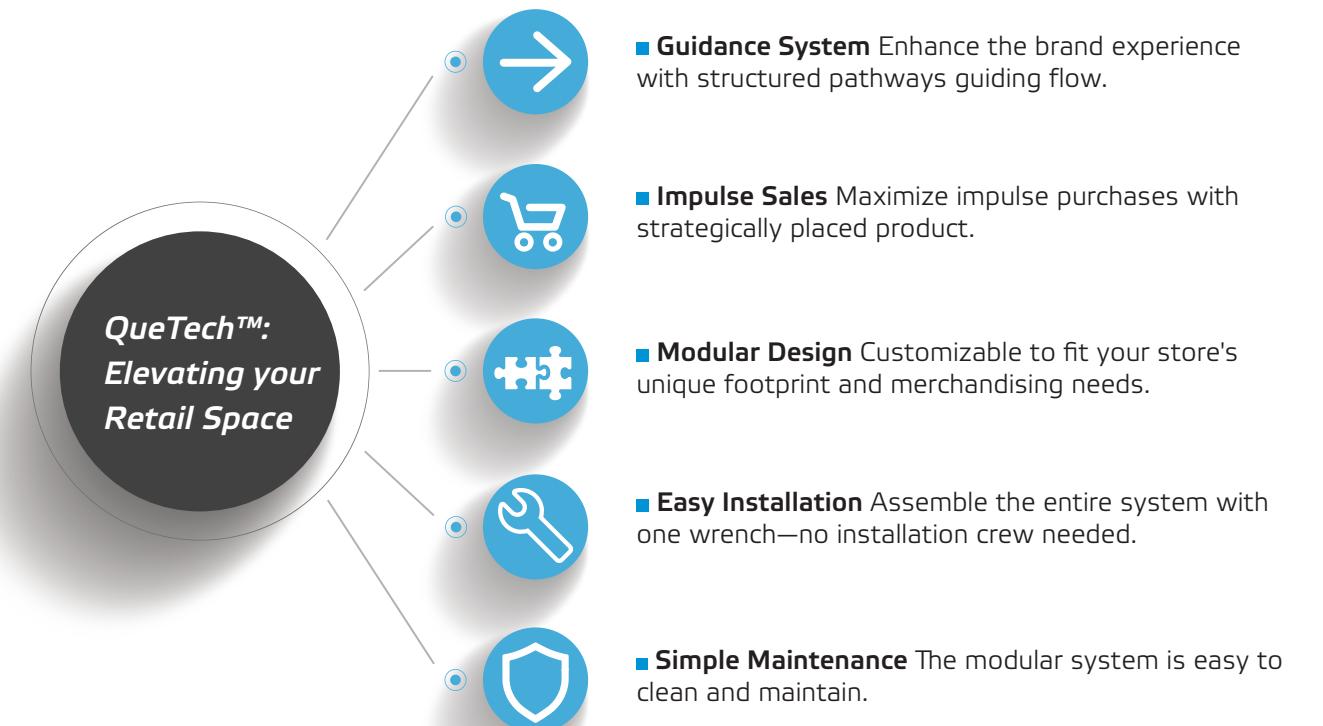

■ **Signage** Wayfinding signage and graphics can be easily installed.

Sign Frame, pg. 13

■ **Endcap Solutions** Increase product visibility with the end frame and round shelf for enhanced customer engagement.

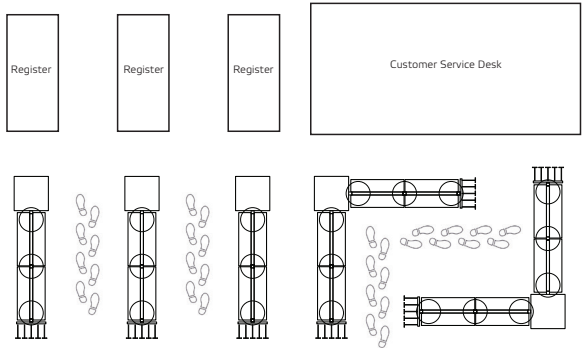

End-Cap Accessories, pg. 10

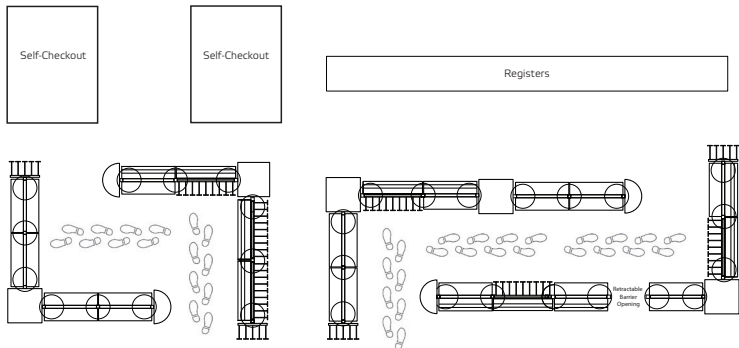

CONFIGURATIONS

Versatile modular system fits any footprint

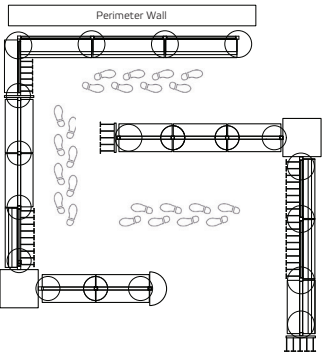

■ **Retailers with registers and a customer service desk** can use the system to separate these areas reducing chaos with lines forming. The round shelves, end frames, and dump-bins serve to increase impulse sales or hold seasonal items.

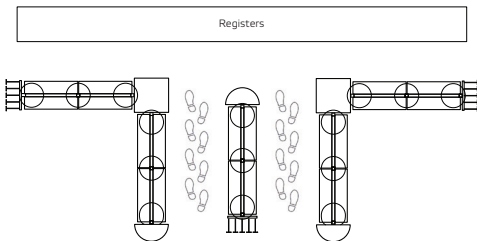

■ **Big-box retailers with multiple registers and self-checkouts** can configure the system for ample aisle-space. The retractable barriers can close lanes or create an opening for emergencies. The round shelves and end frame serve as end cap solutions for additional product offerings. Dump-bins connect the modular system and hold product so retailers maximize every footprint for efficiency.

■ **The Impulse Zone configuration** features a 2-position base plate that allows merchandising to fill up against a perimeter wall. The dump-bins are corner solutions to create an enclosed area for impulse purchasing while boosting the customer experience.

■ **The Split configuration** is ideal for convenience stores, gas stations, and travel centers where foot traffic is high and customers include families, travelers, and truck drivers. The configuration creates two lines for diesel customers and gas & store customers. The dump-bins are corner solutions to elongate the system with the opportunity to hold product.

Core System Components

Part Order No.	QTB16
Description	Base, QueTech, 16 DIA
Part Dimension W x D x H	16" x 16" x 0.5"
Carton Dimension W x D x H	5" x 5" x 0.5"
Part Weight (lbs)	28.171
Case Quantity	1

Base

Part Order No.	QTU42
Description	Upright, QueTech, 42H
Part Dimension W x D x H	2" x 2" x 42"
Carton Dimension W x D x H	2" x 2" x 42"
Part Weight (lbs)	5.81
Case Quantity	1

Upright

Part Order No.	QTTB36	QTTB48
Description	Tie Bar, QueTech, 36W	Tie Bar, QueTech, 48W
Part Dimension W x D x H	34" x 1.5" x 2"	45" x 1.5" x 2"
Carton Dimension W x D x H	34" x 3" x 2"	45" x 3" x 2"
Part Weight (lbs)	2.45	2.92
Case Quantity	2	2

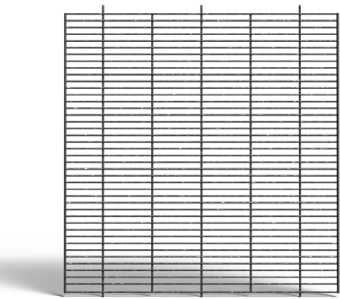

Tie Bar

Each section must have two tie bars.

*Tie-in secure clip pg. 15

Wire Back

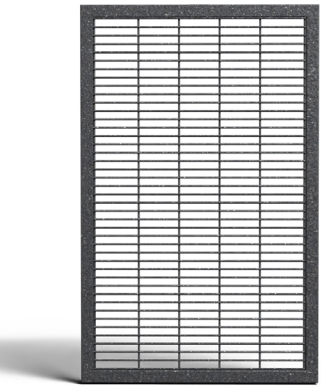

Part Order No.	QTWB3642	QTWB4842
Description	Wire Back Panel, QueTech, 36W, 42H	Wire Back Panel, QueTech, 48W, 42H
Part Dimension W x D x H	34" x 0.5" x 34"	45" x 0.5" x 34"
Carton Dimension W x D x H	34" x 1.5" x 34"	45" x 1.5" x 34"
Part Weight (lbs)	14.18	18.72
Case Quantity	2	2

Each section may have zero, one, or two grid back panels depending on merchandising needs.

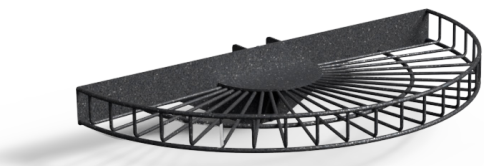

End Cap Accessory Options

End Frame
